DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)

SKIRT.

THE WONDERFUL FLEXIBILITY and great COMFORT and PLEASURE to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in crinoline, not found in any Single Spring Skirt.

A lady having enjoyed the PLEASURE, COMFORT, and great CONVENIENCE of wearing the DUPLEX ELLIPTIC STEEL SPRING SKIRT for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down steps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape, finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against IMPOSITION be particular to NOTICE the skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt.

FOR SALE in all Stores where FIRST CLASS skirts are sold throughout the United States and elsewhere.

Manufactured by the Sole Owners of the Patent, WEST, BRADLEY & CARY, 97 Chambers & 79 & 81 Reade Sts., N. Y.

"YOU MUST GUESS THE REST."

When I was young, the boys at school
Would often try to flirt,
And asked to see me safely home,
But found I was too pert.
One day a boy just big enough
To wear a coat and vest,
Came up and offered me his arm—
But you must guess the rest.

One afternoon, I quietly
Sat reading 'neath a tree,
When this same naughty, saucy thing
Again quite bothered me.
He saw I did not like it much,
And tried with me to jest;
At first I didn't answer him—
But you must guess the rest.

So many happy days sped on,
And as we older grew,
The folks said "some one loved me;"
Well—I loved "some one" too!
Yet when he ever spoke of love,
I called him such a pest,
Then he would look so sad and sigh—
But you must guess the rest.

At last he grew quite bold, indeed,
As through the lane we strayed,
And threw his arm around my neck,
While thus to me he said:
"Will you be mine?"—"Oh, dear!" says I,
"You really are posessed,"
He kissed me; then I kissed him back—
But you must guess the rest.

Agricultural & Domestic.

LATE VS. EARLY COLTS.

In conversing with some of the gentlemen practically familiar with the subject of breeding, who were in attendance at the recent exhibition of horses in this city, we found it to be the opinion of many of them that it was far better to have colts dropped late in the season than in the spring, as is now the almost universal practice, and in some sections of the State the former is fast gaining ground. It certainly has many advantages.—Where colts come in the spring and are taken off at the approach of cold weather, they are poorly fitted to withstand the severe season of winter, are obliged to be kept on dry forage, if given a little grain as an extra feed, they are often injured by it, as their system is easily thrown out of order thereby, and they almost invariably come out in the spring very poor. Now it seems to us these disadvantages can be most completely overcome by just reversing the general order. Have colts come in the fall, say about the last of August, and let them remain with the mare through the winter. Provide a large stall, have the floor well furnished with straw, sawdust or fine shavings as a litter, and turn them in together loose. Feed the mare well, giving a moderate quantity of grain. This will make the milk richer, and consequently the colt will receive full benefit of the grain without the ill results attending the feeding it directly to them when young. Then in the spring, with the fresh starting of the new, tender grass, the colt can be taken off and enclosed in some spot where he can have a choice "bite," where, in a short time, he will be all ready to go on growing, and by fall, will have attained sufficient age, and practice in "foraging," to withstand the winter well. The matter is worthy of attention by all who are engaged in breeding.—*Maine Farmer.*

AN EXTRAORDINARY COW.

Challenge to Owners of Cows.—I have an Ayrshire cow, ten years old last spring, that has given a little over eight hundred pounds of milk in ten days. In seven days, during the month of June, we made from her milk twenty-eight-and-a-half pounds of butter. At that time she ran in a pasture with five other cows, and every night I gave her four quarts of meal, and the average quantity of her milk was forty quarts per day. I have two heifers from this cow; and one of them, during the months of December, January and February, averaged fifteen pounds of butter per week, and was fed and watered but twice a day. I think we shall make seven hundred pounds of butter from her this year.

I challenge any one in America to match the old cow for buttor or milk, for the term of one year, in a forfeiture of five hundred or one thousand dollars, at the election of the person accepting this bet.

All publishers interested in the improvement of our stock of cattle, are requested to give this notice an insertion in their papers. STEPHEN SCAMNON.

A HINT ON BREEDING.

Mr. Torr, the well-known breeder of Short-Horn cattle and Leicester sheep, in the course of some remarks at his recent letting of the latter, touching on breeding in general, he said: "The way to establish *uniformity of family* likeness is to begin by putting the best male to the best female, and to continue to put *the* best *to the* best;" secondly, "not to put opposite characters together, or the traits of both will be lost; but if any fresh characteristic is required to be imparted to the issue of present stock animals, this must be done by degrees, or by that discreet selection which will yield a little more wool, or size and substance, the first year, and a little more and more the second and third generations, and so on."

ORCHARDS AND SOILS.

An exchange says: "A neighbor of ours set one hundred and fifty trees eighteen years ago, on good sandy loam land, and has tended them well. They are thrifty, handsome trees, but he has not obtained fruit enough from them to supply a family of ten persons. We set as many trees at the same time, on a granite soil, have tended them well, and cropped the land heavily every year, and have gathered two hundred barrels in a season. Why the difference? Who can tell? One is a granite soil, the other a rich, sandy loam. Ours is on high land, the neighbor's is on a level between hills and low land."

EARLY GOODRICH POTATO.

A correspondent of the *Country Gentleman* writes of his success with the "Early Goodrich" potato. He says: "I bought a peck of seed last spring, of the variety, and planted, from which I raised twenty-eight bushels of very fine potatoes. The seed was cut into single eyes, and planted two pieces in a hill. Four hills, and in some cases three hills, would yield half a bushel. I consider them a very valuable early potato."

Beautiful.—To see a laborer go to a grocery and pay 17 cents for a pound of sugar which formerly cost but 6 cents; the eleven cents being a willing bonus paid for the luxury of being made equal to a nigger.

☞Eastern capitalists are already making preparations to import ship timber from our new Russian acquisition, and to develop the iron and coal said to exist there.

Choice Miscellany.

The "Gettysburg Asylum for Invalid Soldiers."

Two weeks ago we received the prospectus of the above named company—chartered by the Legislature, with a request that we advertise it two months and call attention to it editorially. It proposes to operate on the lottery plan, the prizes drawn for consisting of jewelry "purchased" in the South during the war. We had a strong suspicion that all things were not right, but General Meade's name being used for President, and that of J. O. Hoffman—whom we mistook for Gen. J. W. Hoffman—for Secretary, we printed the prospectus and gave it an editorial notice in the *Democrat* of the 7th inst. The bill was sent to General Hoffman, Philadelphia, from whom we received an answer on Saturday. He says that he never has had any connection with the matter, nor does he know J. O. Hoffman, whose name is not found in the Philadelphia Directory. Other gentlemen have been deceived into an endorsment in a similar manner.

We take this occasion to warn the public against the "Gettysburg Asylum" scheme, for we do not believe it to be what is represented. Within a week the Attorney General has taken steps to test the legality of it, and General Meade has withdrawn from it. We believe it to be a money-making concern, and if we are not mistaken, something worse. It is impossible that the quantity of diamonds and jewelry advertised, was purchased at the South during the war. If gotten there at all, they were stolen from the owners. We advise the public to have nothing to do with this scheme. —*Doylestown Democrat.*

A Thought for the Discontented.—In the days of the Old Brewery, at the five Points, New York, a woman and her only daughter, a child five years of age, occupied a loathsome corner of the first floor. It was the custom of the mother, after covering the child with all the rags which had been collected during the day, to place a few broken boards, dignified by the title of a door, in such a position as probably kept the horrible place half a degree warmer than it would have been without such a shelter. On one occasion, after the mother had adjusted the boards for the night, the child, probably experiencing some sensations of comfort, said: "Mother, what does poor people do that's got no door to cover them?"

☞Sam ——, a colored man, residing somewhere in Bedford street, by good looks, received a start in the world, and soon acquired a handsome property. When he had reached middle life a friend asked him one day why he did not marry, as a man in his circumstances was abundantly able to support a wife.

"Oh, I consider myself too good too marry a nigger wench," returned Sam, with a feint to turn up his flat nose.

"Marry a white woman, then," continued his friend; "the law allows it, I think."

"I'll be hanged if I'd have a white woman that was mean enough to marry a nigger," replied Sam, with a loud guffaw.

☞At Warrace depot, in this State, while the army was at Murfreesboro, a clergyman had a long and very earnest conversation with some soldiers *en route* to the front. He gave them a good deal of wholesome advice and wholesome warning; to which they listened most respectfully. At length the whistle blew and the soldiers ran and sprang upon the flat cars. Just as the train began slowly to move, one of them cried out to the preacher, "Oh, parson, I have left my oven behind. We can't cook without it. Please throw it up here." Picking up the oven pointed out, the good minister ran after the cars and succeeded in pitching it aboard. Coming back a good deal jaded by the race, but with a countenance beaming with satisfaction at having done a good deed, he was accosted by an indignant old negro, "Marser, what for you tro dat uben to the soger. Dat my uben." —*Exchange.*

One Sided Freedom.—Radical orators at the South congratulate their audiences that there is now freedom of speech in that section. They forget that, by the orders of the satraps, no member of any of the State Governments is allowed to open his mouth about the military despotism bill, even to give advice to a friend. They forget, too, that newspapers at Richmond and New Orleans have been "warned" to shut up about politics. Freedom of speech, therefore, is all on one side, and that, too, the worst side.

Fight among Radicals.—A serious riot occurred at Brownsville, Tennessee, on the 13th, at a Radical Convention, in which three negroes and two whites were shot and wounded. The riot originated in one of the negro speakers declaring that every man who had owned slaves ought to have his heart cut out. Many of the white Rads present had owned slaves, but did not fancy being dissected in return for joining in the black and tan movement, hence a disagreement with the result above stated.—*Patriot & Union.*

Murderers Sentenced.—Oscar J. Crozier (negro), who was recently convicted of murder in the second degree in Philadelphia, was sentenced on Saturday week to undergo separate or solitary confinement in the Eastern Penitentiary for the period of ten years.

The death warrant of Gotlieb Williams was read to him by the Sheriff, Harry C. Howell, the same afternoon, at the Moyamensing jail. Williams is to be executed on the *4th of June* for the murder of Mrs. Miller, his benefactress, last fall. The culprit heard the warrant read unmoved until the end, when he seemed to grow sullen and sorrowful. He only remarked that he would prepare himself at once for another existence.

☞The Johnstown *Tribune*, Radical paper, asks—"wasn't Connecticut a rebel-sympathizing, Union-hating State during the war?" Perhaps it was, as we see by Greeley's almanac that it elected a Radical Governor every year and full Radical delegations of Congressmen every two years, during that whole period. We havn't a doubt it was a very treasonable State all along at that time.

☞Columbus Cornforth (what a name!) has been appointed by Governor Geary Inspector of Soldiers' Orphans' Schools in this State. Wonder how many more Radical pets are to be furnished with crumbs of comfort from the official table of his (so called) Excellency.

☞A Virginia negro, according to an exchange, on hearing that Congress was going to give lands to the darkies, said: "Land de debbil! I's free now, and don't want no land. I's gwine to git worms and go fishing." Give him a vote.

☞"To one principle the late legislature has been faithful. It has been consistent in defying the wishes of the people on every important question." So says the Chambersburg Repository, one of the few Radical papers which have the courage to speak the truth.

POLITICAL PREACHING.

The custom of discoursing upon political issues in the pulpit, which grew to such a lamentable degree during the war, has always seemed to us one of the most dangerous for the interests of the church that could ever have been introduced. It produced heart-burnings which many years will not efface, and led thousands to look upon the practice of religion in a sense which was poorly calculated to improve either their moral or religious inclinations. We care not what a man's political creed may be, he cannot fail to imbibe a repugnance against the preacher who inveigles him in to the sanctuary under the pretence of discoursing to him upon subjects which concern his eternal salvation, and then proceeds to attack his deep-seated convictions upon matters of Government. With the excitement generated by the rebellion, the practice of political preaching has, happily, almost passed away, and we are glad to know that many ministers are willing to confess their mistakes upon this subject, and have resolved not to repeat them.—But there is no telling how upon new issues may arise that will afford a temptation to start the system afresh, and its opponents should abate no energy, now, when the public mind is willing to listen to reason, to build up a sentiment that will, if not entirely abolish it from our pulpits, at least confine it to those localities where reform appears to be hopeless. Among the numerous arguments against political preaching which have appeared, none more clearly and tersely express the views of Conversative citizens than the following editorial from the New York Observer, one of the most influential and widely circulated religious journals in the country:

"The moment that a suspicion of the existence of a predominant partisan or political feeling, on the part of the preacher, is excited in a certain class of minds of opposite sentiments, his influence over them is utterly gone. The preacher himself may conscientiously believe that he is called to the lofty work of vindicating the independent utterance of the pulpit, and he may brave strong adverse influences in discharging what he regards as a sacred duty. But it would be well for him to consider what the effect of his words and course must be on persons not predisposed in his favor who may chance to hear him, and who have souls to be saved or lost. The interests of what are sometimes spoken of as political crises s

GETTYSBURG, PA.

Monday Morning, May 27, 1867.

THE RADICAL PROGRAMME.

The so-called "National Union Committee" of the Radical party has issued a circular to the faithful, urging organization for "the remaining elections of 1867, preparatory to the coming Presidential contest," and begging money to pay the way of Radical speakers throughout all the South.

This appeal of the Radical leaders should open the eyes of every man, woman and child in the land, to the infamous designs of its authors. The meaning of Wilson and Kelly's stumping tour through the South is now made clear as daylight. They are *there*, not to elevate the intellectual or moral condition of the negro, or to re-build the shattered interests of that once fruitful region, but to stir up strife and bad feeling—to create agitation, riot and blood-shed—and all with the single aim of keeping the bad men now ruling the Radical party, longer in office, and their hands longer in the pockets of the people. That this is their programme, no intelligent man, no matter what party he may belong to, can longer doubt.

As to the details of the plan, they are so clearly stated in the *National Intelligencer*, the old conservative organ at Washington, as to leave no room for question on the subject. That none may be deceived by Radical bluster and falsehood, let all read the *Intelligencer's* article—as follows:

"There is an earnest desire on the part of some of the Radical leaders to create a Southern riot of such proportions as will afford an excuse for the reassembling of Congress in July, the impeachment of the President, and the passage of a law of confiscation of Southern property. This is the great end and aim of some of those who see in this present condition of affairs only an opportunity for money making. They are utterly indifferent as to the result upon the country. Some of them have made money out of the war; some of them have seen others realize fortunes from the public disturbances, and are anxious to prolong them with the hope of profit to themselves.

"It is such people who have induced the mission of Radical members of Congress into the Southern States to make a canvass. They procured Senator Wilson, of Massachusetts, to go thither, but he was too tame. He was not incendiary enough for their purposes. He would not make the blood and thunder speeches that these speculators desired. He did not create excitements. He was everywhere kindly and courteously received. He originated no riots. He was a failure in the speculation. Other Radical speakers were started upon the tour, with the hope of better success, among them Judge Kelley, of Pennsylvania, to stir up the passions of the people and bring about a riot if possible. These emissaries of the Radical speculators, without knowing it themselves, are simply martyrs to Northern speculators, who would, if possible, delay reconstruction, promote sectional differences, and excite riots. If one of these Northern stump orators should be assaulted or killed during his trip, the wire-pullers here would be delighted. They would be far advanced towards the accomplishment of their object. It would be heralded at once as a proof of the insubordination of the people of the South, made a pretext for the getting up of a furious crusade of public opinion in the North, the reassembling of Congress in July, the impeachment and deposition of the President without delay, and the passage of bills of confiscation of Southern lands—perhaps one or two hundred leading Southern men might be seized and tried and hung by military commissions, in order to make the reign of terror more complete.

"This is unquestionably the programme. We hope the people of the South will remember it and be guarded against allowing any hot headed defender of their cause precipitating the result so much desired, not by the people, but by the political speculators in the North. Let them tolerate free speech to the utmost extent. Let them treat with courtesy and kindness the Radical emissaries who come among them. Let them with calmness and dignity meet argument with argument and statement with statement. There is hardly a negro in the whole South who has not sense enough to appreciate right from wrong when it is exhibited to him, nor to perceive that these imported disciples of equal rights are working only for party purposes. Their efforts to incite riots and political disturbances should only elicit disgust. This is a new phase of the pending contest. If the people of the South will keep their tempers and maintain their dignity now, those who are endeavoring to re-open old sores and make them still greater sufferers, will be disappointed.

The Mobile Riot—The Truth Coming Out—Kelley acts the Coward.

The New York *Post*, a Radical journal, referring to the recent riot at Mobile, says "the meeting was broken up by a panic rather that a riot." And the N. Y. *Commercial Advertiser*, Conservative Republican, says Kelley's speech was "incendiary, and calculated to arouse deep feeling," and then adds:

"It is evident that Kelley feared some unknown evil, and that in his 'panicky' state of mind, he uttered the threats in regard to using the United States army to sustain his right to speak, and these words only aggravated the 'row' which had already commenced, and which had been produced by accidental causes. * * *As the facts of this Mobile affair become known, it will be seen that the Radicals cannot make political capital out of it."*

A gentleman of veracity and character who was at the meeting, writes, under date of Mobile, May 15, that about one hundred respectable white men were present and some two thousand negroes—that

"The whites were *unarmed*, not desiring or expecting a difficulty. As soon as 'Kelley the Coward' had got the row started, he got under the table on the platform, *lying down at full length*, and when it was safe to do so hatless, he ran to the Battle House, and out of breath asked that a pitcher of water be sent to his room, and if any one asked for him to *swear he was out*; the coward deserted his negro dupes, has not been out of his room the whole day, and has a guard of United States soldiers at the hotel to protect him, while no one here feels anything but amusement at his abject cowardice and fear. * * * The whole thing was organized by Radicals before hand. * * I was present at it all. A negro boy tells me he was requested by a person to go to the meeting armed, and to shoot any s—— of a b—— of a confederate that showed his face."

☞A secret negro military organization has been discovered at Fredericksburg, Virginia, hostile to the United States military. The "colored troops fought bravely" and are all "loyal."

☞Greeley says the man who pays more for shop rent than for advertising *don't know his business.*

DEMOCRATIC VICTORIES IN INDIANA.

The municipal elections in the State of Indiana show large Democratic gains. The following items in regard to some of the principal places are plainly indicative of great changes in public sentiment:

Terre Haute elects the whole Democratic ticket by 250 majority. Mr. Cookerly, whose printing establishment was destroyed by a mob a few years ago, was elected mayor.

New Albany Democratic by 600 majority.

That stronghold of Radicalism, the city of Richmond, for the first time in many years, elects a Democratic mayor and 5 Democrats to 3 Republicans as councilmen.

Logansport Democratic by 70 majority.

Delphi elects a Democratic mayor, marshall, treasurer, clerk and 4 out of 6 councilmen. Last year the Democrats had but *one* member of the council.

Vincennes elects the entire Democratic ticket, with Gen. Green, editor of the *Sun*, for mayor, over R. Y. Chaddington, editor of the Radical *Times*.

Columbus elects a sound Democrat, Mr. John Pettillots, for mayor.

Lafayette, which has heretofore been intensely Radical, elects Hon. Pettit, Democrat, for mayor.

Madison, another stronghold of Radicalism, elects a Democratic treasurer, clerk, assessor and 8 out of 12 councilmen.

Peru, which heretofore elected none but Radicals, now gives us a Democratic mayor, clerk, marshall and 5 councilmen.

With such facts before them, it is not surprising that the leaders of the Radical party are filled with terrible alarm, and that, with falsehoods such as that reported from Fort Wayne, they should endeavor to prop up their falling fortunes.

Not a Radical Victory.—The telegram which appeared in Radical papers a few days ago, announcing a Radical victory at Fort Wayne, Indiana, was a misrepresentation. The Fort Wayne *Gazette*, the Radical organ of that place, says:

"We notice a dispatch in the Chicago papers of this morning announcing the result in this city as a Republican triumph. This is all a mistake; it was in no sense a party success. The German Democrats first inaugurated the movement and deserve the credit, although some of the candidates were Republicans and the Republicans generally voted the ticket."

The organ of the German Democrats, (the *Staats Zeitung*) which supported the successful ticket, denies, most pointedly, the claim of a Radical victory. The ticket was simply a local German arrangement entirely exclusive of politics.

The Radical leaders must be badly off, indeed, when compelled to resort to the manufacture of falsehoods about town elections. This desperation is scarcely to be wondered at, however. Of the scores of city and town elections reported during the present spring, not one that we can recollect exhibits a Radical increase. On the contrary, the Democracy have not only increased their own and reduced the Radical majorities, but, in a number of instances, they have turned the tide entirely against the negro party. These facts are potent to even the casual reader of the newspapers, and are significant of a widespread change in popular opinion.—*Patriot & Union.*

Another Democratic Victory.—The annual election for mayor and councilmen of the city of Cumberland, Md., came off on Monday week, and resulted in the success of the entire Democratic ticket. For mayor, Jacob Humbird, Democrat, received 438 votes, and James C. Linn, Republican, 312. Democratic majority 126. Last year it was 57.

☞The Democrats of Elizabeth, Allegheny co., Pa., carried every office at the borough election, on the 6th inst., by eleven majority—a gain of 65 over last fall. This may truly be called bearding the varmint in his den.

WHAT OUGHT TO BE DONE.

Now is the time, says the *World*, to prepare for the great Presidential contest of 1868, upon the result of which depends civil liberty in this country. It is to settle the question whether we are to be governed by the Constitution and laws, or by the whims and caprice of an irresponsible majority of a rump Congress. It is to determine, more than any other election that has preceded it, for or against the representative constitutional government established by the heroes and sages of the Revolution. It is to determine whether we shall be a great, powerful, free, and prosperous nation governed by wise and humane laws, or whether the country is to be torn to pieces by faction and violence, and finally to end in despotism. If the country is to be redeemed from its present downward tendency, it must be done through the principles and the sway of the Democratic party. This is a matter that vitally concerns us all. We are all alike interested. We cannot escape its consequences, however we may neglect our duties. Each and every Democrat has a duty to perform, and in no other way can so much good be accomplished, as by the timely diffusion of sound Democratic newspapers. Every Democrat should constitute himself a committee of one for that purpose. Put them on the cross-roads; put them in the families of the poor, and in the hands of moderate Republicans. Get up subscriptions among Democrats who are able and willing to contribute for gratuitous circulation. Democrats have failed in their duty in this respect. Our opponents appeal to men's passions; Democrats appeal to their reason and their patriotism. Our opponents are chiefly held together by lust of power and public plunder; we are united upon the great and tried principles of civil and religious liberty. Their history is one of strife, bloodshed, disunion, bankruptcy and widespread national calamities; whilst ours is a history of more than half a century of national happiness and prosperity unexampled in the history of any other nation or people in modern times. Democrats! if you will but deserve success, you will be victorious. Our Democratic friends in Connecticut have done their duty, and they have nobly triumphed. Go to work and do likewise!

A DARKEY'S HOPE.

At the Baltimore Black and Tan gathering on the 14th, William Sanders, a darkey, nominated Creswell for President, remarking that it was "not time yet for Frederick Douglass." He said further that "the only hope of the Radical party will be the vote of the colored man"—which tells the whole story of Radicalism, with its mock philanthropy, rights of man and shoddy patriotism. Another negro—A. Ward Handy—"hoped soon to see the day when the white birds will be swept from the State of Maryland, if not from the continent of America." We have no doubt of that. The same hope has long been entertained by the Jamaica darkies, and it has frequently been manifested in massacres of white men, women and children; but, in Maryland, and in every other State, the closer that hope is buried in the black hearts of the black Radicals the better it will be for the negroes.

☞Napoleon and King William have signed the treaty and the Luxemburg question is said to now settled.

VARIOUS.

—Strawberries from Norfolk are selling in Washington City at from twenty-five to forty cents per quart; tomatoes at twenty-five cents per dozen and green peas at eighty cents per peck.

—In Lower Saxony a shoemaker, named Joseph Tanol, has contrived to live to the ripe age of one hundred and fourteen years. He is an inveterate smoker, "and scarcely ever without a pipe in his mouth."

—A Northern imposter has been swindling the Georgia negroes out of considerable money by persuading them that he had the power to make them citizens and entitled to vote.

—The indications are that the Mexican Liberalists will get up a formidable war among themselves as soon as Maximilian is disposed of.

—A negro named Jordan is to be run as the Radical candidate for mayor of New Orleans. That's what Radicalism is coming to.

—It is said that Archbishop Kenrick intends to erect a cathedral, upon a lot which he has in St Louis, at a cost of two million dollars.

—According to an act of the last Legislature any man who may desert his wife, or children, or both, can be arrested and imprisoned until support, not exceeding one hundred dollars per month, is guaranteed by sufficient security.

—It is supposed that women were made smaller than men, to enable the latter to lift them over the gutters when it rains.

—The hunting party that is going to visit the Rocky Mountains this summer wouldn't let Ben Butler go along, fearing that when they would get high up among the clouds he might *pocket* the silver lining.

—After Jefferson Davis had been released and was about to enter a carriage, he was greeted with loud cheers from a large crowd of negroes in the streets and about fifty of them crowded forward and shook him cordially by the hand.

—Beecher says in his novel: "Perhaps nowhere in the world can be found more unlovely wickedness—a malignant, bitter, tenacious hatred of good—than in New England."

—A Radical paper in New York says that party has become "dwarfed and debased in mind."

—A Radical candidate in Georgia promises forty acres of land to every negro who shall vote for him. The devil once made equally brilliant promises, but, as in the Georgia case, the "old boy" didn't own a foot of land in the universe.

—A New York paper says a modern undertaker's bill is about as frightful as a visit from the sheriff. To lay out, ice, shroud, coffin, decorate, remove and bury an adult costs about $382. As a consequence people all over the country are postponing dying.

—The malignant Radical elements howl fearfully over the release of Jefferson Davis on bail. They begin to see that the Greeley general amnesty-ites are getting the ascendant. The "patriot Underwood" is now denounced as fearfully by them as he was once foully bespattered with their praises.

☞The tax-payers of the North cannot forget that the heaviest part of their present burdens consists of the cost of governing the South, under the military bills, with a standing army, "at an expense of millions of money," when no army and no such bills are required. For almost two years the ten Southern States were peaceably and lawfully governing their own affairs, repairing the wreck of war, and preparing to put taxes into the Federal Treasury. They were not one cent of legitimate expense to the tax-payers of the north. Radical legislation has not only put a stop to Southern prosperity and the prospect of any speedy tax receipts from that source, but it has compelled Nothern enterprise and labor to contribute heavy sums to help carry out the infamous political scheme of the party leaders to perpetuate their power and their hold on office.

☞A Kentucky exchange, in reply to the charge of the New York *Tribune*, that several of the Democratic Congressmen elect from that State had been in the "rebel" army, says: "This statement of the great Radical organ is characteristically veracious. The only one of the candidates elected who was ever in either army is Major Adams, and he was in the Federal service."

☞The following appeared in the New York *Tribune* of Monday:

The Richmond editors, judging by the reports they give of the recent banquet in the Exchange Hotel in that city, to the gentlemen representing different newspapers at the trial of Mr. Davis, were surprised at the sentiments evinced by some of the Northern journalists present. The scenes of the banquet were closed by drinking a toast to "The Health of Mr. Jefferson Davis, as a Soldier and Man," proposed by Mr. Joseph Macfarland, editor of the Washington *Chronicle*, and by the company singing "Auld Lang Syne."

Let it be remembered that the Washington *Chronicle* is one of John W. Forney's foul-mouthed Radical organs.

IN CHARACTER.

The Rochester *Express* (Radical), published its dispatch from New Orleans about Judge Kelley's speech, with the heading of "Good News from New Orleans," as follows:

GOOD NEWS FROM NEW ORLEANS.

NEW ORLEANS, May 13.—After the meeting on Sunday night, addressed by Judge Kelley and others, the negroes attacked a street car, drove out the white occupants, took possession, and ordered the driver to go ahead.

☞It is said that the Republican Committee at Washington is trying to engage Miss Anna Dickinson to deliver a course of radical lectures in the South.

Just like them—Kelley and Wilson have become frightened, and now they wish to send a women down to do their work.

☞The President has appointed Mr. Hunt—the man who was cheated out of his election as congressional delegate—to the governorship of Colorado.

RAILROAD SURVEY.—Messrs. Joseph S. Gitt and P. Harry Irwin, employed to survey a line for the proposed Railroad from Littlestown to Frederick, commenced at the former place on Friday, the 10th instant, and reached the latter on Friday following. A line of very easy grades was found, and of only thirty miles in length, or three miles less than the public road. The line was run into the western end of Frederick. Another route will be surveyed, starting from the Depot, in the eastern section of the city, and running to Worman's mill, there connecting with the line already surveyed. At Woodsboro' it will diverge from this line to the left, by Double Pipe Creek, leaving Taneytown to the right, by which it is expected that a further reduction in distance can be effected. With so favorable a survey, it is hoped that the friends of the enterprise will be stimulated to such efforts as will secure its early success.

TOWN AND COUNTY AFFAIRS.

THE NEW POWER PRESS.—Our Press builders write us, under date of New York, May 22, as follows: "If it is possible for us to ship your Power Press by July 1st, we will do so. Shall leave no effort untried to accomplish it." Though anxious to enlarge the COMPILER without delay, the reader will see by the above that our impatience must be curbed a short while yet. As soon as the machine does arrive, a column will be added to each page of the paper, and all the columns lengthened, making a difference of eight or nine of our present columns in space. We shall do our best to please all the COMPILER'S numerous *friends, and make* it as worthy as we may know how of the public's continued patronage.

THE AGRICULTURAL FAIR.—The buildings and fencing on the Fair Grounds at Bendersville have been torn down, with a view to their removal to and re-erection on the grounds purchased by the Agricultural Society here, where the Fairs are in future to be held. A number of our farmers have already volunteered a day's hauling towards getting this material down, and we allude to it with the hope of inducing others to do likewise. The Board feels the necessity of economizing wherever it is possible, and if farmers and others who have teams would do this job of hauling gratuitously, it would be quite an item saved to the Society, and only a matter of a day's loss of time to those generous and public-spirited enough to give it. What say you, farmer friends? Can you not spare now—or after your corn-planting is over—a day to help forward an organization whose interests are entirely your own?

—It may not be out of place to say, in this connection, that work on the new Fair Grounds has been commenced, and will be pushed forward as vigorously as the means at the control of the management will admit. We have already alluded to the necessity for the sale of a large number of Life Memberships, and trust that farmers and others interested will act promptly on the suggestion. The cost of a Life Membership is $10. Such as have Certificates for this year can surrender them, and by the payment of $9 additional receive a Certificate which will entitle them to membership, throughout their lives, without the cost of an extra cent. Think and act, and thus *help*, without delay.

HOUSE RAISING AND MOVING.—It may interest many persons in the town, and county, to know that we have now among us a gentleman prepared to raise or move buildings, from the smallest to the largest size, of wood, brick, or other material. The gentleman alluded to is Mr. F. S. Gintling, who has spent some time at Chicago in this business, and now returns, well skilled, and having all the necessary machinery. Mr. G. already has several jobs of raising on hand—indeed has completed one, on York street, near the Globe Inn, for Ex-Sheriff Wolf. See card in another column.

SENTENCED.—At the Orphan's Court, last Wednesday, the application for a new trial to Basil Little, convicted at the April sessions of robbing Wm. Morgan of some $40 in money, was sentenced to the Eastern Penitentiary for one year.

Tavern license was granted to J. A. H. Reather, at Middletown.

INTERNAL REVENUE.—The Chambersburg *Spirit* says that C. W. Ashcom, Esq., recently appointed Collector of Internal Revenue for this district, intends collecting the revenue taxes of Franklin county in person, visiting Chambersburg at stated periods for that purpose. It is said that he will adopt the same plan in regard to Adams.

BUILDING ASSOCIATION.—The Gettysburg Building Association is proving a grand success. The last share was taken on Saturday afternoon, and in the evening three shares brought a premium of $1 30 each.

WATER COMPANY.—At the annual election for Managers of the Gettysburg Water Company, on Saturday week, the following persons were chosen: George W. McClellan, George Swope, E. B. Buehler, S. R. Russell and H. J. Stahle. The Board organized by the re-appointment of Geo. W. McClellan as President, and S. R. Russell as Secretary and Treasurer. David Sweeney is Collector of Water Rents.

PENNSYLVANIA RESERVES.—The first annual meeting of the Pennsylvania Reserve Association will be held in Harrisburg on Thursday next. The oration will be delivered by General Wm. McCandless, late of the 2d Regiment, and the banquet served at the State Capital Hotel.

LARGE COLT.—We are informed that Samuel March, Esq., of Reading township, is the owner of a two year old colt which weighs 1000 pounds. This is certainly a very large colt. Who can report a heavier one?

RAILROAD REPORT.—From the fifteenth annual report of the President and Directors of the Hanover Branch Railroad Company, just published, we learn that the gross receipts during the past year were $58,502 29, and the total expenses $39,588 85, leaving the net receipts $19,021 24.

RAILROAD SMASH UP.—On Friday evening week, the train on the Littlestown Railroad, when near Plum Creek, ran into a car which had been left standing on the track by the repair hands, resulting in severe damage to the engine and several freight cars. Surprising as it may seem, not a single person on the train was injured.

CAT ORDINANCE.—The Borough Council of Hanover has decreed "that it shall be unlawful for any person to maliciously destroy, in the borough of Hanover, any cat *for the purpose of obtaining its skin*," and attaches a penalty of $10 and costs for each and every violation of this anti-cat-skinning ordinance.

"Not Badly Take."

Of all the medicines ever introduced to the public, none give such general satisfaction as these Pills, particularly for controlling the Liver. As this is conceded to be the most important in reaching the desire change, and regulating those functional irregularities, no fam ly should be without them. The tone properties of which they consist are of such an order as to cause a discharge of the corrupt diseases from the system, and in cases of Biliousness, in all its forms, no Pills are as good. By the use of them, Bad Blood becomes Animated, and is made good and pure. The bowels are kept in g neral order, and they pour up your digestive organs, giving new life to the invalid, satisfying him in his own mind that Ralway's Regulating Pills are the one and only sure remedy for the many diseases incumbent upon the human family. They fight against disease and the doctors, and never allow life to be sacrificed by delay. Mild in action, purgative as well as satisfactory to the general organs, Dyspepsia, Diarrhœa, Dysentery, Diptheria, Asthma, Rheumatism, Gout, Influenza, Headache, Pleurisy, Lumbago, and all like ills of diseases, give way to the power and effect of those purely vegetable Pills, tasteless as the finest lozenge with saw of gold, and for Oliver Goldsmith once said of a prescription, "not bad to take."

Sold by Druggists. Price 25 cents per box.

Dr. SCHENCK'S MANDRAKE PILLS.
A SUBSTITUTE FOR CALOMEL.

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious affections in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the Liver, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition.

In short, these Pills may be used with advantage in all cases when a purgative or alterative medicine is required.

Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two Doctresses of the Doctor are on the Government stamp—one when in the last stage of Consumption, and the other in his present health.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiring as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their person and appearance an hundred fold. It is simple in its composition, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. A Card to the Ladies.

DR. DUPONCO'S GOLDEN PERIODICAL PILLS FOR FEMALES. Infallible in correcting Irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and always Successful as a Preventive.

It is now over thirty years since the above celebrated Pills were first introduced by Dr. DUPONCO, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with unparalleled success. In every case, and it is only at the "urgent request" of the thousands of ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any Irregularities whatever, as well as to prevent an increase of family where health will not permit it.

ONE PILL IS A DOSE.

Females peculiarly situated, or those supposing the motives so, are cautioned against using these Pills while in that condition lest they "invite miscarriage," after which admonition, the Proprietor assumes no responsibility, although their mildness will prevent any mischief to health, otherwise the Pills are recommended as a MOST INVALUABLE REMEDY, for all those ailing complaints so peculiar to the sex.

ONE BOX IS SUFFICIENT.

10,000 Boxes have been sold within Two Years, Ten Thousand Boxes sent by Mail, both by myself an l Agents, to all parts of the world, to which answers have been returned, in which in less say, nothing like the above Pills have been known since the Science of Medicine dawned upon the world, in Removing Obstructions and Restoring Nature to its Proper Channel, Quieting the Nerves and bringing back the "Rosy color of Health" to the cheek of the most delicate.

Price $1 per Box. Six Boxes $5.

Sold by JOHN S. FORNEY, Druggist, Sole Agent for Gettysburg, Pa.

This is no humbug, as thousands of testimonials can assert. She will send when desired a certificate, or written guarantee, that the picture is what it purports to be. Hubbard's
SELF-RAKER.

THE undersigned are agents for this celebrated Combined Self-raking Reaper and Mower. This machine has two driving wheels, hinge-joint and folding-bar, is very simple in construction, and is considered by those who have used them to be equal in grass to any light machine made for mowing only. It cuts 4 feet 8 inches in grass, and 5 feet 6 inches in grain, is a rear-cut side-delivery, capable of cutting a whole field of grain without binding a sheaf, and does the most satisfactory work in lodged grain, to be worked with two horses. We claim this Self-raker to be the best in existence. Farmers reading over the different advertisements will come to the conclusion that all are best, but we will give them our reasons for calling ours the best:

1st. This Self-raker has four rakes (no blanks or fans). The driver, by means, of a small lever in front of him, can make either rake sweep the platform at his will. You will see by this that it makes no difference how far you have to drive, you can always have a full sheaf, thereby saving binding, gathering or dividing sheaves.

2nd. If your grain is one thickness so that it will permit of making a sheaf each revolution of the Rake or you wish to put the driver on the horses, you can do so by simply drawing one bar, and still keep the rakes all on to drop into the lodged or tangled grain. Here is one point to which we wish to draw your attention. Take notice where all these rakes strike into the grain and then compare them with blanks or reels on other Self-rakers.

3d. If you wish your oats on a swath, tie your lever fast, and it will do its work perfectly and you will be safe for wet weather.

4th. All men know that in a hand-raking Reaper that the reel must be changed for different kinds of grain to make it reel on platform, and so must a Self-raker to make perfect work in extreme tall or short grain. This Rake has this most desirable and indispensable improvement, which no other rake has. This is done by changing two set screws in rake-head which works on a pivit. With a combination of these four desirable points, it has been unanimously acknowledged by all disinterested and practical machinists to be decidedly simple and durable in its construction.

At the great National Field Trial, held at Auburn, New York, last July, which is conceded to have been the largest and severest trial ever held in the United States, lasting several weeks, under the entire management of the New York State Agricultural Society, *this machine was awarded the Gold Medal* for the best Combined Self-raking Reaper and Mower, (Class No. 4). Since the great trial, different machines are claiming Medals, and most persons are in a fog about it. We will explain: There were about 50 different machines entered for the different Medals, and they were classed as follows: The best machine in each class was awarded a Medal, and the second best a prize of $25.

Class No. 1, Light Mowers; No. 2, Reapers, Hand Rake, (*for grain only*); No. 2½, Reapers, Self-rake, (*for grain only*); No. 3, Combined Reaper and Mower, (Hand-rake); No. 4, Combined Reaper and Mower, (Self-rake) Hubbard's; No. 5, Combined Hand and Self-raking Reaper and Mower, (thrown out on *account of inferior work*)

At the Field Trial, held by the Center County Agricultural Society, on McAllister's farm, last July, Hubbard's Combined Self-raking Reaper and Mower was awarded the highest premium for the best work done. See Circulars for report. All we ask is farmers to come and see this machine for themselves. We warrant them to give entire satisfaction in all respects. Sample machines on hand. Extras always on hand. Branch Shop at York, Pa. Address Granite Hill Post-office, Adams county, Pa.

☞Also Pratt & Smedley's Patent Horse Rakes on hand, built by Geo. W. Brant & Co., Columbia, Pa.

☞Persons wishing to purchase Hand-rakers and afterwards have the rake attached, can be supplied by us; also Mowers to be had ready to attach to rake hereafter.

MOUNTJOY TOWNSHIP, April 24th, 1867.

MESSRS. WILLIAMS, WALLACE & Co.—Last harvest I purchased one of your Combined Self Rakers, and I pronounce it a first class Machine. Can cut any kind of Grass wet or dry, at a very slow walk, and never chokes. The Self Raker works very well. I believe that it can bring up lodged Grain that no other Machine can do with blanks, and can be changed for different kinds of Grain, which is a great advantage. Yours truly,

HENRY W. SWARTZ

CUMBERLAND TOWNSHIP April 24th, 1867.

MESSRS. WILLIAMS, WALLACE & Co.—I bought one of your Combined Self Raking Reapers and Mowers, and can recommend it as a splendid Mower. Never chokes, and of light draught, and the Rake does all it is recommended to do. It is a great advantage to make the sheaves any size you wish.

Yours truly, JOHN SOCKS, Sr.
JOHN SOCKS, Jr.

STRABAN TOWNSHIP, April 24th, 1867.

MESSRS. WILLIAMS, WALLACE & Co.—We, the undersigned, having used and fairly tested the Hubbard Combined Reaper and Mower, (Hand Rake,) can recommend it as of light draught, and free from side draught, and believe it to be the most durable Machine in our locality, and has given us general satisfaction. Yours truly,

JOHN G. BRINKERHOFF,
JOHN STALEY,
ISAAC F. BRINKERHOFF.

GERMANY TOWNSHIP, April 24th, 1867.

MESSRS. WILLIAMS, WALLACE & Co.—I purchased one of your Combined Machines after going to see three different Self Rakers working. I immediately put it to the test in grain that leaned away from the Machine on two sides, and it gave entire satisfaction. I then cut my Oats crop, and cut a large quantity of Grass, and will say for the Hubbard that it will not choke in any kind of Grass, wet or dry, standing or lodged, at the slowest gait your horses will walk. Is free from side draught, no weight on horses' necks, and is light work for two horses. The Self Rake is without a doubt the best Self Raker out. It has four Rakes, (no blanks,) and can bring up lodged Grain that no Hand Raker can do, and can regulate the sheaves the size you wish—changing the Rake for any kind of Grain. That it will make nice work in the tallest Rye or the shortest Clover seed, and if the Grain is one thickness, can make a sheaf each revolution of the Raker without any aid from the driver; can also swath Oats, which is another great advantage no other Machine has. Yours truly,

SAMUEL WEANT.

GERMANY TOWNSHIP, April 24th, 1867.

MESSRS. WILLIAMS, WALLACE & Co.—I purchased one of your Combined Self Rakers from your Agents, HENRY THOMAS & SON, and can consistently recommend it as a very good Mower of light draught, and the Self Raker can bring up Grain that is down better than any Hand Raker can do. Yours truly,

JACOB KING.

I can endorse the above recommendation of Mr. King, as I have one of the same Machines. JONAS ROYER.

The National
REAPERS AND MOWERS.
Hoffman' Patents.

The No. 1 Machine has two Driving Wheels, Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draft and durable, cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Raker and Side Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut Grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels is a Self-Raker and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his left upon a foot-step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine.

All Machines warranted to give satisfaction! For further information apply to

SHIREMAN'S
NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH
Horse Rake!
Patented September 9th, 1862, and Re-issued December 6th, 1864.

This Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the Raking and Discharging, by the driver moving a lever a few inches, which throws it in gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the *Raker has hardly any work to do at all!*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years, and given the best kind of satisfaction.

Sewing Machines.

THE GROVER & BAKER.—THE BEST IN USE. These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

Needles and Thread will also be supplied.

The World Astonished

AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophies, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malific stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the great Astrologist on earth. Hosts you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Reparator Capilli.

Throw away your false frizzles, your switches, your wigs—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (*from* whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it to you, by return mail, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR

ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this Country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounce them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, causing it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.
